

7. DETAILS OF INSTRUCTIONAL FACILITIES

1. ICT RESOURCE CENTRE

A well equipped Educational technology cum computer lab that aims to enable the students to enrich their technological knowledge. Various equipments like computers, overhead projector, LCD projector, tape recorders, video camera, television etc. are available for training the student teachers.

2.CURRICULUM LABORATORY:

a.PSYCHOLOGY LAB :

Our college has a psychology laboratory well equipped with various tools/tests and equipments

b.SCIENCE LAB :

The science lab has two divisions- physical science and biological science. Both the divisions are well equipped with apparatus, chemicals, specimens, slides, charts and microscopes

3. ART AND CRAFT RESOURCE CENTRE:

Our college has an Art and Craft Resource Center with adequate number of equipments, tools, raw material and excellent works of art and craft. All the possible facilities and opportunities are extended to our students to incise students minds & creativity. Various competitions are organized every year. Workshops are also arranged to learn many artistic and creative things.

4. HEALTH AND PHYSICAL EDUCATION RESOURCE CENTRE:

By promoting physical education in colleges, educators are in a prime position to help students establish life-long healthy behavior patterns and boost scholastic success.

In addition, physical education in colleges has been shown to have positive effects upon learning, which includes

- Increased concentration
- Increased attentiveness in class
- Better grades
- Better behavior

How to Promote Physical Education in trainees:

The following are some of the ways educators can promote physical education both inside and outside the classroom:

- Incorporate classroom-based physical activities
- Provide physical education taught by a qualified PE teacher to all students
- Invest their time in athletics, exercise and games.
- Sponsor sports teams
- Share community sports facilities
- Work with communities to provide after-school physical activity programs

5. LANGUAGE LABORATORY:

Language labs are a very comprehensive and cost-effective tool for educational institutions to monetize their language training and also offer students effective language learning via the latest technology and educational content. They are the perfect solution for designing a structured academic curriculum in accordance with the objectives of an educational center with an international vocation audience that seeks the highest quality in teaching.
